

## MEMBER SUCCESS STORIES

The Diabetes Program has helped me to become more aware of how important it is to follow up on all the important things to do if you are a diabetic. I like that I receive reminders of foot exams, eye exams, blood work, and it is such a great help financially with my supplies. I am so thankful for this program, and I hope it continues for many years. I was extremely happy when I was told that I was eligible to participate in the program. Until I was diagnosed a few years ago, I was not aware of the severity and seriousness of the disease. Sincere thanks.

**LU-ANNE**

Before the Diabetes Program, I was not testing my sugar on a regular schedule, also I was skipping not taking some of my medications on a daily basis, for my co-pays were expensive & I was trying to save money. Now with this Program, I am back on track, and I have better control of my disease. Thanks to you & this program. **RALPH**

I have benefited from the Good Health Gateway program in many ways. The incentive of getting free medication and supplies has kept me on track with my blood level readings. My appointments with my doctor have also shown great progress. My A1c level was as high as 8.6. My last two readings were 7.9 and 7.1 going in the right direction. With all this success, it has given me the encouragement to start losing weight. I have only lost 6 pounds, but I still have the stamina to go for 10 to 15 more. You have saved me quite a few dollars from 5 scripts I need to get each month. Thank you for this opportunity. **WILLIAM**

I have had type one diabetes since I was three years old, a total of twenty years. I am challenged daily with my job and maintaining my blood sugars. As soon as I found out about the Good Health Gateway [program], I said "Aha! Finally, I have some help!" This program holds me accountable to attend my appointments, and it rewards me for doing the right thing. This program makes my life easier and more manageable by helping with my medical costs and encouraging me to be responsible with my diabetes! **ERIN**

The Diabetes Program has given me and my family peace of mind. With 4 kids, finances are usually tight and the cost of diabetes care was always a concern. Since enrolling in this program, it has become so much easier to manage getting the diabetic supplies my son needs. It is very easy to qualify and stay in the program. I am so happy by participating in the Good Health Gateway Diabetes Program, it's really been a lifesaver! **TRACY**

The Diabetes Program has helped me to stay organized about my diabetes care. I know that if I have regular eye & feet exams, and monitor my A1C levels, I have the best chance at a healthy and "normal" life. The financial rewards-zero copays on all diabetes prescription medications/devices are huge. But I know that taking the best care of myself is the real reward. **RONALD**
