MEDICATIONS INCLUDED IN THE COST-SHARE ASSISTANCE PROGRAM

The following is a list of medications that are included in the Cost-Share Assistance Program, which is administered by PillarRx Consulting, an independent company. If your plan includes the Cost-Share Assistance Program, manufacturers of medication will cover most or all of your out-of-pocket costs for eligible medications.

Enrolling in the Cost-Share Assistance Program reduces your total out-of-pocket cost for your medication to the amount listed.¹ The amount will range between \$0 and \$35, depending on the medication.²

Medications on this list are subject to change. This isn't a complete list of covered medications, and inclusion on this list doesn't guarantee coverage.³ You must have a valid prescription from a licensed health provider to receive coverage for these medications. Some medications may also be subject to pharmacy management programs, such as Step Therapy, Prior Authorization, or Quality Care Dosing, or have other coverage requirements.

If you're taking a medication on this list that's not approved by the Food and Drug Administration (FDA) to treat your condition, or a medication on this list with age restrictions, your medication won't qualify for cost-share assistance through this program. If you have any questions, call the PillarRx Care Team at **1-636-614-3128** (TTY: 711).

NOTE: Some medications on this list may be considered non-covered, including new medications under review by Blue Cross. Your doctor may request an exception for a non-covered medication when medically necessary.⁴

Learn More About Your Coverage

For more information about coverage for these medications, sign in to MyBlue at bluecrossma.org or open the MyBlue app, then go to **Medication Lookup Tool** under **My Medications**.

If you're not a member, you can get more information by visiting bluecrossma.org/medication.

1. If the manufacturer changes the out-of-pocket cost for your medication listed, you'll be notified 60 days in advance of the change.

2. Your out-of-pocket cost for each medication isn't determined by the quantity or strength prescribed.

3. Not all medications listed are covered by all prescription plans. Check your benefit materials for details.

4. If approved, you'd pay the out-of-pocket cost shown on this list.
